

Hi All,

First, we would like to thank everyone that attended our start-up meeting! If you were not able to make it, don't worry. Here are the minutes:

- The first Web Dev club meeting held 11/21 was a diagnostic meeting.
- Pizza and refreshments were offered to attendees.
- Founders of the club introduced themselves and outlined the purpose and goals of the club.
- A small questionnaire was passed out to club members to be filled out. The questionnaire gathered information on club members' name, email, year in school, experience in web development, and wishes on topics to be covered.
- The founders briefly spoke about their goals for the direction of the club.
- Hand raising exercises were done to get a general feel for experience.
- Member introductions/icebreakers were conducted.

Our next Web Dev Club meeting will be on **January 9th, at 6pm in Deschutes Hall Room 100**. At this meeting we will cover beginner to advanced details of HTML5 and CSS3. This meeting will allow us to get everyone caught up and comfortable creating a static website before we move on to creating dynamic websites.

It would be a great idea to brush up on your skills by checking out these tutorials before the next meeting:

- <http://www.codecademy.com/tracks/htmlcss>
- <http://www.htmldog.com/guides/>

If you have any ideas about web technologies you would like to learn, please respond to this email! Remember, this is your club!

Best,
Sahil, Brenda, John, and Cam
